Ames, Iowa

NORTHWESTERN BELL TELEPHONE COMPANY

GENERAL OFFICES, TENTH & GRAND, DES MOINES, IOWA

R. C. Hopley, District Commercial Manager, Des, Moines, Iowa

Walter Bell, Local Manager

Call "Repair Service" if your telephone is out of order.

Call "Chief Operator" to inquire about a call in the process of completion.

Call "Manager's Office" for all business transactions such as applications for service, changes in service, directory listings, directory advertising, inquiries regarding bills or charges, or to report unsatisfactory service of any kind.

HOW TO USE THE TELEPHONE

Always obtain the correct telephone number from the directory before you make a call.

If the person you wish to speak to is not listed in the directory, call "Information."

Speak slowly, clearly and directly into the telephone, with your lips about one inch from the mouthpiece, so that you will not be misunderstood.

After you have given the number, listen carefully while the operator repeats it. If she repeats it correctly, say "Right"; if she repeats it incorrectly, say "No" and give the number again.

To recall the operator on a connection, move the receiver hook up and down slowly three or four times.

Do not hang up the receiver until you are through with the connection, as this gives the operator a signal to disconnect you.

When your telephone is not in use, always keep the receiver on the hook; otherwise your line will be out of order.

Answer your calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

In answering a call, say for example, "Mr. Jones speaking," or "Smith & Co., Jones speaking." This method of answering identifies you and saves time. It is desirable to answer calls in this manner both from business and residence telephones.

Because telephone numbers are subject to change, it is desirable merely to indicate the matter, signs, etc., that you have Bell connection instead of using the number.

LONG DISTANCE SERVICE

To make a long distance call, ask the operator for "Long Distance." When "Long Distance" answers, give her your name and telephone number and the details of the call, stating which class of long distance service you desire to use. When "Long Distance" acknowledges your call, hang up the receiver and wait until the operator calls you.

Different rates apply for the different classes of long distance calls. Information regarding them and how each class can be used to the best advantage follows:

A Station-to-Station Call should be made when you will talk to *anyone* answering the telephone called, or when you feel that the person with whom you wish to talk, can be promptly summoned to the telephone by the person answering. In placing such a call, for example, say to the operator, "I want to talk with anyone at John Smith's telephone at Redmond, Iowa." (Give telephone number if known, or street address.)

Rates for station-to-station calls are considerably cheaper than for other classes, because less labor and use of the telephone equipment is required to complete them. For the same reason, station-to-station service is generally more rapid.

When a call is placed as a station-to-station call, but sent collect, the person-to-person rate is charged. On such calls, it is necessary to have someone at the

telephone called agree to pay for the message before the conversation can be held. This requires approximately as much work as a person-to-person call.

Evening and Night Rates apply only on station-to-station calls. Evening rates are in effect from 8:30 P. M. to midnight and are about one-half the day rate. Night rates apply from midnight to 4:30 A. M. and are about one-fourth the day rate. However, when the day rate is 25 cents or less the evening or night rate is the same as the day rate. Otherwise the minimum rate for evening or night calls is 25 cents.

A Person-to-Person Call is used when you desire to talk with a *specified* person and want the operator to locate him by telephone and inform him of the call. In placing such a call, for example, say to the operator, "I want to talk with John Smith at Redmond, Iowa." (Give telephone number if known, or street address.) Person-to-Person rates are one-fourth to two-fifths higher than station-to-station rates.

An Appointment Call is made when you arrange to talk with a *specified* person at a designated time. The rate for this class of service is about one-fifth higher than for a person-to-person call.

Messenger Calls—When it is necessary to send a messenger to summon the person called to a telephone, it is a messenger call. The rate for this

class of call is about one-fifth higher than a person-to-person call plus the messenger charges.

Report Charge—On uncompleted person-to-person, messenger and appointment calls a report charge is made when it is impossible to reach the person called within a limited period and such failure is due to no fault of the telephone company.

The report charge is approximately the difference between the day station-to-station rate and the person-to-person rate. This charge is made to cover a part of the expense of the operators' time and the use made of the equipment in attempting to

locate a specified person to inform him that you wish to talk to him, and to make reports to you, if he is not available. A report charge is not made on uncompleted station-to-station calls because this work is not performed by the telephone company.

To obtain rates to any place, call "Long Distance." If you want to know the charges on a call at the close of your conversation, notify the long distance operator when you place the call.

Our Manager is anxious to give further information regarding our long distance service. Please feel free to call upon him.

Directories

This directory is published twice a year, in June and December.

No change in listings will be made or new listings inserted in the next issue of the directory, unless the necessary work of making the change or installation involved is completed before the directory copy closes for the printers. All orders for changes or new listings which are to appear in the next issue should, therefore, be placed with the company not later than the 1st of the month preceding the months shown above. Orders received on the 1st of the month preceding the publication date can usually be completed in time for the next issue, but it is desirable that orders for changes be received as much in advance of these dates as is possible.

Rules and Regulations Governing Service Furnished by the Northwestern Bell Telephone Company

The following are the Rules and Regulations governing Subscribers' telephone service furnished by the Northwestern Bell Telephone Company.

Use of Equipment by Subscriber

All telephone equipment furnished to a subscriber is to be used only by the subscriber or members of his household or persons residing with him as members of his household, or his agent or employees when engaged in the business conducted by the Company. Equipment shall not be used in any manner which will be injurious to the equipment. Equipment shall not be removed from the subscriber's premises except by an authorized employee of the Company, and shall be surrendered to the Company at the termination of the subscribers contract.

Connecting With Other Equipment and Appliances

The equipment furnished by the Telephone Company shall not be connected with any other equipment and no instrument or appliance shall be connected to it. Telephone instruments have been designed to produce the best results and are necessarily sensitive and intricate. The various devices which are offered for sale, and which are supposed to improve transmission, eliminate noise, destroy germs, or afford other improvements, are not only unnecessary, but generally cause trouble. In order to protect its service the Telephone Company will remove all such appliances.

Right of Access to Premises

At all reasonable times the Company, through its authorized employees, shall have the right of access to the premises of the subscriber to install, inspect or repair the lines or equipment, or to remove them upon termination of the subscriber's right of use.

Allowance for Failure of Service

The Company does not guarantee uninterrupted working of its lines or equipment. For any complete failure of service, however, of more than twenty-four (24) hours' duration, of which the Company is promptly notified in writing, a pro-rata abatement of the contract charge will be made.

Errors in Directories

The Telephone Company issues directories to assist it in furnishing prompt and convenient service, and it does not guarantee to its subscribers correct listings therein. Every precaution is taken to prevent errors and omissions, but they will occur, and the Company assumes no liability

Identification of Employees

Employees who are authorized to install, examine, change, or remove any of the Company's equipment at subscriber's premises are furnished with identification cards, which show the Company's name, the personal signature and description of the employee, and are countersigned by an official of the Company. Subscribers are earnestly requested to refuse access to their premises to persons unable to furnish proper identification.

ity for damages caused to a subscriber by such errors or omissions in its directories. Claims for damages on account of interruption to service due to errors or omissions in directory listings will be limited to a pro rata abatement of the charge for service in accordance with the portion of the subscriber's service affected; and in no event shall such damages exceed in amount one-half the regular rental of the subscriber for the period of time from the issuance of the directory in which such mistake occurred to the date when there is published a new directory containing the proper listing of the subscriber's name.

Ownership of Directories

Telephone directories furnished subscribers are and remain the property of the Telephone Company and shall be surrendered upon deliverance of each later issue. No binder, holder, or auxiliary cover, except such as may be supplied by the Telephone Company, shall be used in connection with any directory furnished by the Telephone Company.

Change of Number

The Company reserves the right to change the subscriber's telephone number or designation at any time.

Charges for Moves

The subscriber will be required to pay the Company's customary charges for any change in the location of his telephone equipment made at his request.

Advance Payments

The Company may at any time demand payment for service in advance of the establishment thereof.

Outgoing and Incoming Service Privileges

The tariffs and rate schedules of the Company govern and fix the outgoing service of a subscriber and in no manner guarantee to him the same incoming service. All incoming service of a subscriber depends upon and is limited by the right of the calling subscriber to such service.

Default of Payment or Other Breach of Contract

All bills are due when rendered, and are payable at the Company's business office. Failure to receive a bill, however, will not exempt the subscriber from prompt payment as required by his contract. In the event of any default of payment, or other breach of the terms of its service contract, the Company reserves the right to at once discontinue the subscriber's service or disconnect and remove its telephone equipment.

OUR COMPANY POLICY

This Company's success depends upon operating along lines that meet with public approval.

We endeavor to furnish dependable telephone service at the lowest rates at which such service can be furnished and yet pay good wages to our

employees and a reasonable return to our investors.

We want the public to know what we are doing at all times and why we are doing it, because only in that way can we expect to win and hold public confidence and good will.
